DETAILED ACTION

Response to Arguments

1. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1, 2, 4, and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Odru (FR 2,651,880). Odru discloses the claimed invention including a measurement device (33) mounted in a fixed location in a machine, which is connected to a processing device (38), wherein the weight of a load is calculated based on readings taken when the load is placed in two different locations (last two paragraphs at the bottom of page 7 to the first two paragraphs on the top of page 8 (page 6 in PTO 06-4057)) .

With respect to claim 2, this is inherent to any weighting device; also note that Odru gives specific equations (p. 8).

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Odru (FR 2,651,880) in view of Jones (Des. 337,410). Odru discloses the claimed invention except for the tow bar (the weighing device 33 is located between the frame 22 and the wheels (Fig. 1)). It is known to place a tow bar on a fork lift for the purpose of enabling it to pull a dolly behind it, as shown by the example of Jones, and it would have been obvious to the ordinary practitioner for the same reason.

Conclusion

6. Claims 5, 6, and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
